

BENCHMARK PROJECT MANAGEMENT (UK) LTD CASE STUDY

Title

Abbey Wood Conservation Fence, Bristol.

General Scope:

Supply and install of conservation picket fencing inclusive of 2no. pedestrian gates. Relocate 10no. existing picnic benches.

Works included:

- GPR survey to locate any existing services
- Supply and install of timber picket gates.
- Relocate existing picnic benches.
- Supply and install of timber picket fencing
- Reused suitable arisings and removed remaining from site.

Duration:

2 weeks

Client:

Amey Defence Services

Value:

£10,000

Innovation:

- A conservation fence was required to contain the local pond wildlife, which were at the time quite often interacting and causing problems to the site's staff. The sites ecologist asked if we could supply and install a timber picket fence along the side of the pond while still providing the wildlife room to roam. Benchmark sourced FSC timber locally, moved the numerous picnic benches and constructed the fence using individual pieces of pales, thus ensuring we met the ecologists' specifications. Two access gates were also installed at suitable locations.

Customer Comments:

"I'm really happy with it, thanks for all your hard work".
